ALUMINIUM TAPE

(Articlenumbers: 45579, 45589)

Short description:

Single sided aluminium foli tape with liner, certified DIN 4102 B1

Product data:

Backing	0,025mm dead soft aluminium foil
Adhesive	Acrylic
Liner	Single sided siliconized white polyethylene film
Total thickness (without liner)	0,055mm
Adhesion to steel	7 N/25mm
Tensile strenght MD	48 N/25mm
Elongation at break	5%
Temperature resistance	100°C (short period)

Application:

This product is suitable for joining aluminium insulation panels and for conditioning plants.

Features & Benefits:

- Good tack and adhesion
- Good resistance to ageing
- Excellent moisture and vapour barrier
- Hand tearable
- Well adaptable on most surfaces

Conditions:

Store in a cool and dry place, away from sunlight and direct heat sources (23°C / 50% relative humidity). As far as the storage conditions are respected, the product is guaranteed 12 months.
